

Commissioning & Start-Up

CSU with API RP 1FSC

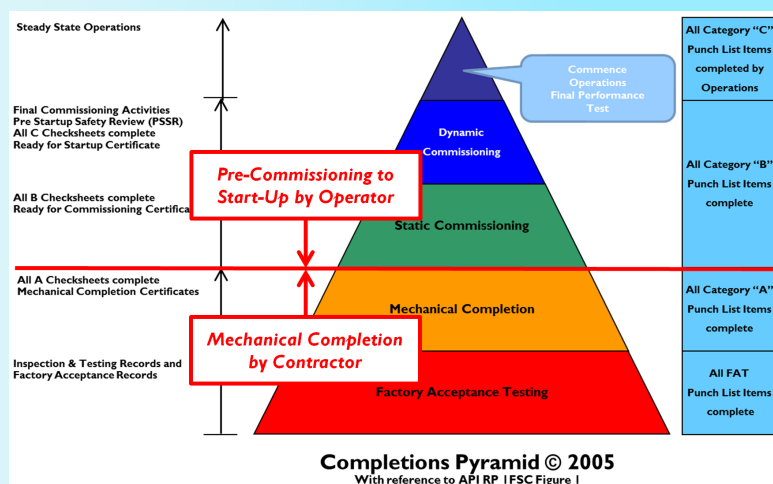

Train, Learn, Apply, Improve — Performance You Can Trust

These are must-attend events hosted by Falcon Group course leader and CEO, Alan Mills, dedicated to providing you with essential tools and technology.

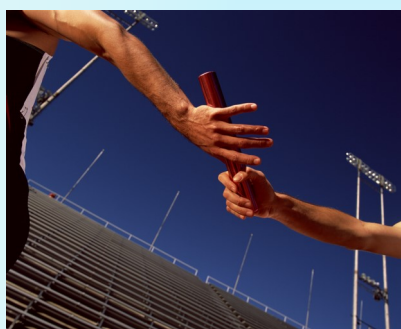

Since 2013 we have trained over 250 CSU professionals worldwide on our intensive 3-day training course covering the important phases of Systems Completion through Dynamic Commissioning and initial project Start-Up of Onshore Plants and Offshore Facilities.

Join us and transform your career!

Each class includes:

- ◆ Systems Completion
- ◆ Pre-Commissioning
- ◆ Dynamic Commissioning
- ◆ Initial Project Start-Up
- ◆ Shutdowns & Turnarounds

Commissioning & Start-Up 1-Day and 3-Day Classes

We run intensive training workshops in CSU to senior management (1 day) and project teams (3 day), covering the important phases of Commissioning and initial project Start-Up of Onshore Plants and Offshore Facilities.

Senior Managers and more experienced Engineers, Operators and Investors taking the 1-Day class will learn how CSU determines the project as a success or failure, hence the need for a rigorous approach.

Apply Systems Completion with API RP 1159 and make your project a success. You will learn:

- ◆ ***How to do Systemization***
- ◆ ***The importance of FATs and Preservations***
- ◆ ***Gap Analysis***
- ◆ ***Plan and execute specialist off-site Pre-Commissioning***
- ◆ ***Punch List Management***
- ◆ ***MoC and PSSRs***
- ◆ ***System Turnovers***
- ◆ ***... and much more ...***

What People Say About Us

"The passion you have for this, and your willingness to share what you know with others. For me this is the differentiator and what makes your workshop better than others." ~ Ignatius Nwokorie, Shell Petroleum Development Company, Senior CSU Manager, Nigeria, October 2014

"Very well organized course material and the instructor. Alan, was really good with the pace of the course progress." ~ Akash Roy, Technical Superintendent, SBM Offshore, Houston, January 2015

"Alan is very knowledgeable in the CSU of onshore and offshore facilities.

The training provided us with much required info to prepare us for safe commissioning of our new system, step by step approach, planning processes, required resources. He provided best industry practices and project lookbacks. This valuable information gave us the opportunity to improve and re-look into our execution plan." ~ Azhar Amin, Maintenance Supervisor, Chevron Singapore, Kuala Lumpur, March 2015
