Subject: Letter of Recommendation Global Falcon

To whom it may concern,

On behalf of Kentech, I would like to express my appreciation and recommendation for the performance and delivery of the MasterClass Foundation Course in Systems Completion and CSU with API RP IFSC to a number of our personnel in North America and in Kazakhstan.

Global Falcon have delivered a robust and practical based learning platform for both experienced and graduate positions. The material and the delivery of the course content was of a high standard and the feedback from those who have completed the course was that the material was rich in practical and theoretical elements that were delivered in a structured manner.

Kentech is a global technical services solutions provider working on behalf of major owner operators and engineering contractors in the energy sector. At Kentech, we retain a commitment to the training and professional development of our people as a core element of our company charter. We acknowledge and value the role that Global Falcon has played in supporting the continuous professional development of our employees.

Kentech look forward to working with Global Falcon in the future and have no hesitation in recommending them as training solutions provider.

We wish them every success in all future endeavours.

Sincerely,

Lorcan O Carroll
Client & Technical Services Manager
