Principles of Systems Completion through Commissioning & Start-Up

Classroom training, virtual courses and self-paced eLearning for today's talent

Master Class-CSU

What is it?

- ◇ The first industry-approved formal education in CSU
- ◇ Provides learners and employers with valuable, recognized and certified qualification
- ◇ Based on internationally-recognized Training Standards

MasterClass CSU is applicable to all sectors in the Energy and Process Industries, including Petrochemical Plants, Offshore and Subsea, Nuclear and Renewables. Training spans the project life cycle to initial project Start-Up.

Who is it aimed at?

Managers to Engineers and Technicians / Operators with experience and involved in the Systems Completion and Commissioning & Start-Up of a project, *plus* Construction Managers and Engineers from stakeholder organizations.

How will I benefit?

By the end of this course, you will have learnt how to:

- ◊ Achieve successful CSU on any project by applying the Critical Success Factors
- ◊ Develop and justify a budget for CSU
- ◊ Apply the Systemization process and formulate the Start-Up sequence of priority Systems
- ◊ Perform Gap Analysis, know how to apply the results
- ◊ Persuade Construction and major stakeholders to be successful in the CSU process

Value Proposition to Employers

Learners completing the course receive a verifiable, signed certificate for 18 hours CPD/PDH, valid for 3 years. Apply CSU skills to advance your employer's reputation and see real cost savings on current and future projects.
